This equipment contains several markings to ensure traceability and fulfilment of the marking requirements established by international regulations.

In this product, the marking information is divided into three categories: trademark, CE type and label. The information contained slightly varies for each electronic model.

1 DZ0M

Trademark

The manufacturer's name, SALTO, is marked on the lower part of the keypad. The trademark is visible to the final user.

CE type

The CE type reference of this equipment is E2133 and it is marked on the bottom of the reader enclosure next to the USB C connector.

The CE type is common for all electronic models of this product family. It is visible even after installation allowing the identification of the product when it is installed as intended. This item number is also used as

an identifier on the EU Declaration of Conformity. Together with the electronic model (marked on the label) is used for the traceability of the equipment.

Label

There are two labels for this electronic model and both are located on the back side of the external part of the lock. The labels contains the following information:
