This equipment contains several markings to ensure traceability and fulfilment of the marking requirements established by international regulations.

In this product, the marking information is divided into three categories: trademark, CE type and label. The information contained slightly varies for each electronic model.

1 WRM0M

Trademark

The manufacturer's name, SALTO, is marked on the external of the front plastic enclosure. The trademark is visible to the final user.

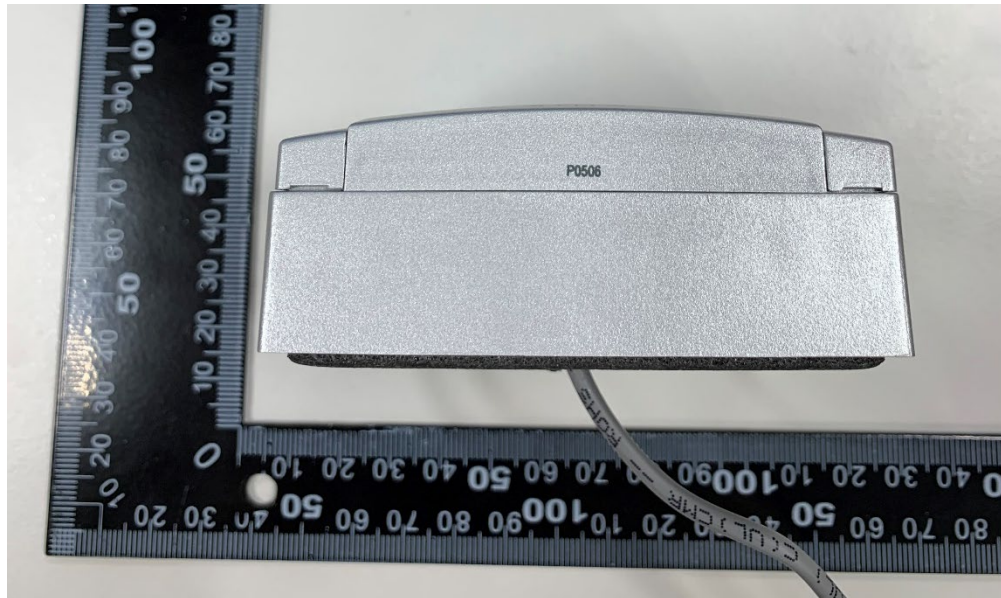

CE type

The CE type reference of this equipment is P0506 and it is marked on the bottom of the external plastic enclosure.

The CE type is common for all electronic models of this product family. It is visible even after installation allowing the identification of the product when it is installed as intended. This item number is also used as

an identifier on the EU and UKCA Declaration of Conformity. Together with the electronic model (marked on the label) it is used for the traceability of the equipment.

Label

The label is located at the rear side of the product attached to the potting applied to the PCBA. The label contains the following information:
