Hi Celia,

Please address following issues.

Q#1: 15.209 doesn't apply to conducted output power test. Instead, it's radiated measurement.

Please provide the field strength test data of the fundamental and its harmonics by using radiated measurement method.

Ans: Test was re-did and please see revised test report.

Q#2: As indicated in the internal photos, a USB is equipped. Please explain its function. Per 15.101,

it is classified as a PC peripheral that FCC DOC or certification rule shall be followed. Please address.

Ans: The customer replied the USB port can't to PC but its related receiver, details see attached attestation letter.

Best Regards,

Lucy Tsai  
CCS
