

MOBILETRON TPMS Installation Manual

(1) First, please follow the standard procedures to dismount tire from rim.

(2) Check and verify sensor

(3) Vehicle Selection (Model, Year,...)

(4)Tire Select (Choose the tire position)

(5) Trigger the sensor (press the TEST button)

If succeed, the "Pass" button be shone. Once it shows "Fail", it means the sensor won't be fitted to the selected vehicle.

(6) Install to the rim

(7)Mount the tire back to vehicle.

(8)Follow OE re-learn procedures

Please refer to the standard re-learn procedures of each automaker. Basically, we suppose the tire garages and specialists should own this essential information because it is very important tool for them to fix the TPMS. However, you can still go online to have more understanding about it. Below are some websites for your reference.

註解 [c1]:

(9)Finish
