

Digital FM Transmitter

97651

Instructions

1. Connect the 3.5mm audio input plug from the FM Transmitter to your portable DVD, CD, MP3 player or other portable device using the head phone jack.
2. Plug the 12V DC plug into the cigarette lighter socket in your vehicle.
3. The unit will come on and the backlight will light up.
4. Turn on your FM radio. Select a station that is not being used in your area.
5. Press the + or - on the FM Transmitter to adjust the FM frequency to the station previously selected on the radio.
6. Turn on your music or video player and set the volume to the middle of the volume dial.
7. Increase the volume on your radio until your music or video is at the desired level.

To Save Stations into Memory

1. Tune the FM Transmitter to the desired station.
2. Press and hold the M button for 2 seconds.
3. M1 will flash. M1 is now selected.
4. To choose between M1, M2, M3 and M4 press the + or - button.
5. When you select the correct memory preset, press M again to save the station.

How to Improve the Transmitted Sound

1. Make sure the FM station you select is the quietest one on the FM dial in your area. For example, manually tune through all stations on your FM dial and note the ones that pick up the least amount of FM radio stations. It is best to record 3 or 4 stations and program all of them into your FM transmitter.
2. Make sure the input to your FM Transmitter is not being overloaded. This can cause dipping and distortion through your FM stereo. If you suspect this simply turn down your CD/DVD, MP3 player or computer.

To Rotate Memory Presets

1. Press the **M** button once to show the next memory preset.
2. Press the **M** button again to select the next memory preset.
3. Pressing the **M** button again and again will rotate thru all memory presets.

One Year Limited Warranty

Jasco Products Company warrants this product to be free from manufacturing defects for a period of one year from the original date of consumer purchase. This warranty is limited to the repair or replacement of this product only and does not extend to consequential or incidental damage to other products that may be used with this unit. THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES EXPRESS OR IMPLIED. SOME STATES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS OR PERMIT THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATIONS MAY NOT APPLY TO YOU. This warranty gives you specific rights, and you may also have other rights which vary from state to state. If unit should prove defective within the warranty period, return prepaid with dated proof of purchase to: Jasco Products Company, 10 E. Memorial Rd., Oklahoma City, OK 73114.

FCC Regulations

Notice: Federal Communications Commission (FCC) requirements, Part 15

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CAUTION: Any changes or modifications not expressly approved by the grantee of this device could void the users authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC NOTIFICATION:

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and**
- (2) this device must accept any interference received, including interference that may cause undesired operation.**
