

Class II Change Request Letter

Dated this 2006/11/9

FEDERAL COMMUNICATIONS COMMISSION
Authorization and Evaluation Division
7435 Oakland Mills Road
Columbia, MD 21046
U.S.A.

FCC ID: UMB-WCF7

Dear Sir,

The C59 component is one of the capacitor parallel connected on the support circuit of the input port on the bottom of the EUT. Since it is the smaller one of the capacitors which doing the same function. So, there is no influence on the function of the EUT and only little influence to the emission nature.
Test report with newest spurious emission test result was uploaded.

Sincerely yours,

Roger Sheng
Manager / Radio Business
Sporton International Inc.
