Product Name: STS-1400

Request for Confidentiality

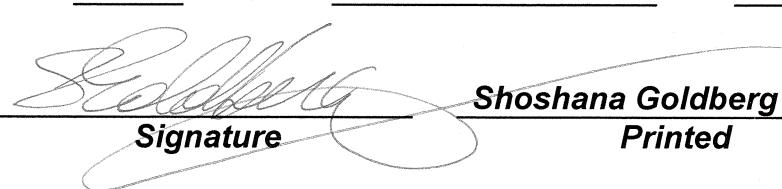

Pursuant to Sections 0.457 and 0.459 of the commission's rules, we hereby request that the following documents be held confidential:

- Photos showing internal construction and component placement Operational description
- Block diagram
- Schematics

The primary reasons for this request for confidentiality are as follows:

1. The product covered by this submission is a Perimeter Surveillance Radar, which is intended for use in a number of high-security applications, including some for military use and homeland security. If made available to the general public, the above material included as part of the submission could be used by potential intruders to assist them in developing techniques for avoiding detection or for defeating the surveillance system. This could potentially compromise the effectiveness of the security system.
2. The above material also contains trade secrets and technical data that would be customarily guarded from competitors.
3. This is a non-consumer device and is inaccessible to the general public. This product is mounted in areas that are not accessible to the general public. It is only serviceable by the manufacturer or by trained service technicians.
