Product Name: STS-1400

Request for Confidentiality

Pursuant to Sections 0.457 and 0.459 of the Commission's rules, we hereby request that the following documents be held confidential:

- Photos showing internal construction and component placement
- Block diagram
- Schematics and parts list
- Operational Description
- Tune Up Procedure

There are three primary reasons for this request for confidentiality:

1. This is a non-consumer device and is serviceable only by Amphitech Systems or trained service technicians.
2. The product covered by this submission is a Perimeter Surveillance Radar, which is intended for use in a number of high-security applications, including some for military use and homeland security. If made available to the general public, the above material included as part of the submission could be used by potential intruders to assist them in developing techniques for avoiding detection or for defeating the surveillance system. This could potentially compromise the effectiveness of the security system.
3. The above material also contains trade secrets and technical data that would be customarily guarded from competitors.
