Reference: Product Statement regarding ifm product “LW2120 Non Contact Level Transmitter” and Emerson product “Rosemount 1408 Level Transmitter” product changes

Dear Valued Emerson Customer,

LW2120 Non-Contact Level Transmitter is an ifm labled version of Emerson product Rosemount 1408 Level Transmitter. These transmitters are both produced by Emerson.

Product Statement:

No changes impacting radio performance have been implemented between the following two product versions:

- 1) Hardware version DP3A and firmware version 1.A1.

and

- 2) Current valid hardware version AA=1.00.00 and current valid firmware version 1.C2.

Please contact your local Emerson Sales Representative with any application or ordering questions you may have for help finding your best solution. Emerson is committed to providing you with the highest level of quality and state-of-the art process measurement and control solutions. Thank you for allowing Emerson to continue to serve you now and in the future.

I hereby confirm this product statement.

Sincerely,

A handwritten signature in black ink, appearing to read "Johan Sandahl", written in a cursive style.
