BUOY BLUETOOTH  
WATERPROOF SPEAKER  
USER MANUAL

7199-61

The core feature of the Buoy Bluetooth Water Proof Speaker is the patented acoustic design, employing a smaller size to produce an improved sound performance.

1. Active Speaker Driver
2. Passive Radiator
3. Elastic Support

Bluetooth V3.0 + EDR(A2DP)  
Maximum cordless distance 10 meters  
Battery life: up to 6 hours (Lithium battery 500mAh)  
Power Audio Rating: 2.5W (THD≤10%)  
Size: Ø 100\*52H(mm)  
Weight: 123g

Connecting a Media Device via Bluetooth:

1. Press and hold the Power ON/OFF button. Once on, the speaker automatically enters pairing mode.
2. Bluetooth will auto-search for the previous paired unit (for up to 10 seconds). To pair a new device, Turn the bluetooth function on original device off and try again.
3. Once paired, the front LED button will continuously flash blue.
4. If Bluetooth can't discover the previously paired device, it will search for new devices to pair with.
5. Start your Bluetooth device and search for the BUOY. The Bluetooth ID BUOY will be detected in your device manager. Once located, select to Pair and connect.
6. If Bluetooth can't pair successfully (after about 3 minutes), it will Automatically turn off. Follow your device's instructions for Bluetooth Pairing. In the case where a pass code is required, enter 0000.

Adjusting the Volume and Changing Tracks:

1. Short press the +/- buttons to increase/decrease the volume. Tone will sound once maximum volume is reached.
2. Press and hold the +/- buttons to select next/previous track. Tone will sound to indicate the track is ready to play. Long press to skip ahead/back several tracks.

Turning Off Buoy BT Speaker:

1. Press and hold the Power ON/OFF button for approx. 5 secs. The LED will turn off and a tone will sound indicating the device has powered down. Speaker will shut down automatically if not paired after 10 mins.

Using the Call Function Button:

1. Short press the Call Function button to answer an incoming call.
2. To reject a call, press and hold the Call Button for several seconds.

The double faced suction cup allows the speaker to be mounted to any smooth, flat surface such as tiles, mirrors, windows, etc.

FCC STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:  
(1) This device may not cause harmful interference, and  
(2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
Reorient or relocate the receiving antenna.  
Increase the separation between the equipment and receiver.  
Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:  
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
