RE: Confidentiality Request for XDT1 Transmitter FCC ID UOB91699TX94

To Whom It May Concern:

This letter serves as an official request for confidentiality under FCC Rule Sections 0.457 & 0.459. We have requested that the schematic diagrams for the XDT1 Transmitter required to be submitted with this application be withheld from public review.

This application contains detailed block diagrams, schematic diagrams, and a detailed theory of operation submitted to the FCC for review. The information within this application contains propriety information (trade secrets) regarding the circuit operation and capabilities specific values of components, circuit design and system architecture which are the results of our extensive investment in research and development. Without the disclosed information, competitive organizations would take considerable more time to asses and develop a workable competitive product. Since this is a new product in an existing market, we believe that is these documents are disclosed to our competitors, it would harm our ability to compete in this market.

We therefore formally request that the materials contained in this envelope be kept strictly confidential and not made available for inspection by another party, except on a need to know basis for the sole purpose of the certification process. If you have any I may be reached at 916-779-1040.

Sincerely,

A handwritten signature in black ink, appearing to read 'Guy Coker', written in a cursive style.
