Temporary confidentiality for 180 days from public disclosure is important for PICA Product Development from a commercial perspective. It enables the company to complete its development and regulatory efforts prior to introducing the product to the marketplace. Releasing information on the product via the FCC website prior to formal market introduction can be confusing to our customers, and places the company at a competitive disadvantage.

Sincerely,

A handwritten signature in black ink, appearing to read "Scott Stapleford", with a large, sweeping flourish at the end.

Scott Stapleford
