Picture 2: EUT - back side .....	2
Picture 3: EUT - bottom side.....	3
Picture 4: Standard charger - top view .....	3
Picture 5: Charging travel case with cover opened - top view .....	4
Picture 5: Charging travel case with power supply - top view .....	4
Picture 5: Power supply for Charging travel case with - side view.....	5

### Important note:

As described in user manual radio transmission is deactivated while handle is placed on plugged-in charger. Therefore charging mode is not subject to radio certification, although plugged-in charger and handle are put on the market together as electric toothbrush.

In addition, handle is sold with a charging travel case that also contains a charger. Using wireless power transfer, plugged-in charger and charging travel case have to be authorized separately.
