

## **Circuit Description**

Input 12V DC voltage by J1,J2, IC34063 will reduce to 5 volts, 5 V voltage from IC U3 then reduce to 3.3 volts, To the IC KT0803M power, KT0803M for audio input and firing frequency of IC, the display shows the frequency by the IC SN8P2612 and IC HT1621 drive
