

April 18, 2008

To Whom It May Concern:

This letter is providing the additional information for the Permissive Change application. The model XP20W-1P and XP20W-1N are based on the previously original certified model XP20W-1P and XP20W-1N. The following component has been changed:

The scanner module is changed from Hand Held Products Inc 5100 series to 5300 series. The main difference between 5100 series and 5300 series is that 5100 series utilizes an LED aiming scheme but 5300 series utilizes a Laser Aimer.

All design including electronic, electrical and construction remain the same except the above mentioned. The above specified change is not intended for maximum power.

Sincerely,

JANAM TECHNOLOGIES LLC
