

NORTHWEST EMC, INC.

22975 NW Evergreen Parkway, Suite 400
Hillsboro, OR 97124

January 25, 2007

Dear Application Examiner:

On behalf of Andrews Cooper Technology Incorporated, Northwest EMC Inc is submitting this application for the certification of their 15.249 transmitter, FCC ID: UWUVL-6. It operates in the 2400-2483.5MHz band using GFSK modulation. Andrews Cooper Technology is using the nRF2401 chip radio in their Vlink racing system. They are using the same radio in the VL-6.00R, VL-6.00SR, and VL-6.00SL. These are the remote, right shuttle, and left shuttle of a skier speed measurement system. It is battery operated with no provision for connection to the AC mains either directly, or indirectly from another device.

The radio utilizes a single integral trace antenna. This configuration satisfies the requirements of 47 CFR 15.203.

The receiver portion of this radio transceiver has been verified to FCC 15B.

The technical reports and exhibits demonstrate compliance with FCC rules 47 CFR 15.249.

Your efforts in reviewing this application are greatly appreciated.

Best regards,

Northwest EMC, Inc.
