RE: Request to Supersede Documents & Add Additional Exhibits, FCC ID: UXD07003

To Whom It May Concern:

We would like to request the FCC to remove the Internal and External Photographs exhibits from the database. Also, in addition to replacing the Internal/External photos we will be providing MPE Calculation, Antenna Gain information, & additional test plots to this filing. This request is due to our annual ANSI audit concerns, which requires superseding and providing additional information to correct the filing.

If any additional information is needed, please let me know.

Thank you for your quick response to this matter.

Regards,

Jennifer Sanchez
