RE: 7316A-PC5

HunterDouglas is requesting single family certification for the HUB 2.0 device. The product will be sold under two different model numbers 1012000196 and 2105000015. One model under the HunterDouglas name and one under Kirsch name. There are no component, design, or electrical differences between the two models except for the model number.

J. Douglas Barnes
Agent, HunterDouglas
