

4 in 1 Car Kit for iPod

The 4 in 1 car kit for iPod & iPod Mini is lightweight portable charger for users on the go. Simply plug it into your car's cigarette lighter and connect it directly to your data/charging port on your iPod to charge. Digital wireless Radio Transmitter wirelessly connects portable music players to your car or home stereo quickly and easily. Just plug the FM Transmitter into the iPod tune your car or home stereo or receiver to the clearest FM frequency, and enjoy your digital music with full stereo sound and convenience. The digital tuner locks digitally into the clearest available radio station. Our products have been tested by industry professionals to ensure they are of the highest quality and long lasting.

Operation Instruction:

1. Insert the cigarette ends of iPod Auto kit in the cigarette device of your automobile.
2. Connect the iPod and the unit with the attached audio cable.
3. Plug the iPod data cable to the USB port of the unit in order to recharge while listening the music.
4. Choose one of 4 frequencies and tune the car stereo into the same one. Please try the best channel in order to avoid the static of the local strong radio station. Then, you can listen the great digital music through car stereo.
