**Description of model difference - FCC ID: UYW-4180003**

SRT Marine Technology Ltd will manufacture the AtoN product.  
The AtoN will consist of 1 physical product which consists of the following software controlled variations:

	<i>Packaged product</i>	<i>Non packaged</i>
<i>TRS</i>	<i>418-0003</i>	<i>418-0004</i>
<i>TR</i>	<i>418-0001</i>	<i>418-0002</i>

1. Difference between TRS and TR products

T-Transmit R-Receive S-Sensor

SRT Marine Technology Ltd declares that the difference between the TRS and TR product is software related. On the TRS model the Sensor function is switched on, on the TR product the sensor function is turned off by software configuration depending upon the customer requirements.

All testing was carried out with the sensor unit activated.

2. Difference between Packaged and non-packaged products

Packaged product refers to the AtoN unit plus user manual, cables and bracket in its carton.  
Non packaged product refers to the AtoN unit only.

3. 418-0003 is the top level packaged product.

Yours Sincerely

**Richard McMahon**

Certification Engineer, SRT Marine Technology Limited
