Federal Communications Commission
Office of Engineering and Technology
Equipment Authorization Division
7345 Oakland Mills Road
Columbia MD 21046

Subject: Attestations

To the Commission:

The maximum transmitter power is fixed at the factory and in the firmware, there are no controls that allow the End User to adjust or change the transmitter power beyond what is listed on the FCC Grant, this includes 2.4 GHz, channels 12 and 13.

Further, we attest that this device does not support "Ad-Hoc or Peer to Peer on DFS frequencies.

The Applicant understands that pursuant to Rule 0.457, disclosure of this Application and all accompanying documentation will not be made before the date of the Grant for this application.

We, the undersigned, attest that this device does not support access, by any party (End User or Professional Installer) to disable DFS. There are no controls or selections in the product firmware that can turn off / disable DFS.

Respectfully,

A handwritten signature in cursive script that reads 'Mark S. Luksich'.
