Columbia, MD 21046

Ref: FCC ID: **UZ7TC5301**

### Device Protocol Attestation

We, **Zebra Technologies Corporation**, attest that this device under FCC ID: **UZ7TC5301** complies with device protocol requirements and operational restrictions: for Dual Client 6CD.

- a. The product does not support 6PP category and the maximum power does not exceed authorized values.
- b. This device will only associate and connect with a low-power indoor Access Point, subordinate device, or standard access point and never directly link to any other client devices
- c. This device will always initiate transmission under the control of a low power indoor AP or subordinate device or standard Power Access Point except for brief communications before joining a network. These brief messages will only occur if the client has detected a low Power Indoor AP, subordinate, or standard access point operating on a channel. These messages will have a time-out mechanism such that if it does not receive a response from an AP it will not continually repeat the request.
- d. this device, when associated and connected with a low-power indoor access point, subordinate or standard access point device, will operate at a power lower as advertised by the indoor access point, subordinate, or standard access point:
  - i. lower than or equal to the power advertised by the low-power indoor access point or subordinate and never above the maximum output power allowed by the FCC grant for clients associated with indoor clients or subordinate devices.
  - ii. 6dB below than the Standard Power Access Point's authorized power level and never above the maximum output power allowed by the FCC grant for clients associated with Standard Power Access Points.
- e. We acknowledging this device is subject to and in full compliance with the device restrictions list below.
  - prohibited for control of or communications with unmanned aircraft systems, including drones.
