

27 JULY 11

Federal Communications Commission  
Office of Engineering and Technology  
Equipment Authorization Division  
7345 Oakland Mills Road  
Columbia MD 21046

To the Commission:

This is a letter of declaration, attestations and requests for FCC ID: UZ7XWING1.

### **DFS - “Ad HOC” Declaration**

We, the undersigned, attest that this device does not support “Ad-Hoc on non-US frequencies” and/or “on DFS frequencies”. The client software and associated drivers will not initiate any transmission on DFS frequencies. This includes transmissions for beacon ad-hoc or peer-to-peer modes.

The radio supports 802.11d and will not transmit until a valid Master device is detected. In the case when 802.11d is not activated then only non-DFS channels are actively probed.

This device does not act as an Access Point on 5.15 – 5.25 GHz but does support Ad-Hoc mode in this band.

2.4 GHz band:

The product does support Access Point function (master) on 2.4 GHz Band but can only transmit on US channel (ch1 to ch13).

### **Request for Permanent Confidentiality**

Pursuant to Sections 0.457 and 0.459 of the Commission’s Rules, the Applicant Hereby requests confidential treatment of information accompanying this Application

As outlined below:

Operational Description  
Block Diagram  
Schematic Diagrams

## Regulatory Engineering

---

The above materials contain trade secrets and proprietary information not customarily released to the public. The public disclosure of these matters might be harmful to the Applicant and provide unjustified benefits to its competitors. The Applicant understands that pursuant to Rule 0.457, disclosure of this Application and all accompanying documentation will not be made before the date of the Grant for this application.

**Short Term Confidentiality is not requested.**

Respectfully,

A handwritten signature in blue ink that reads "Mark S. Luksich".
