# High Resolution sound with Qualcomm® aptX™ HD Stereo Bluetooth headset

# Sound Master MFB-C7200 Series User Manual

MobiFren is made by dreaming for all the user's happiness.

It delivers premium sound via MSTS $^{\text{TM}}$  Tuning Technology together with lossless compression codec Qualcomm $^{\text{RM}}$  aptX $^{\text{TM}}$  HD & AAC codec enabling you to enjoy music with premium Hi-Fi sound in wireless like as CD quality.

- MSTS<sup>TM</sup> is a Audio Technology of MobiFren Co.,Ltd.
- Qualcomm aptX is a product of Qualcomm Technologies International, Ltd.

### **MobiFren MFB-C7200 Series Features**

• This manual includes the following model as a series of C7200.

Model name	MFB-C7200S (Seiren Soul)	MFB-C7200A (Seiren Air)	MFB-C7200M (Seiren Muse)
Ear body component	Kernel type	Open type	Basic earphone
Characteristics	All-in-one type(different in ear boby design)		MMCX switch type (available for switches to user's own earphone)

#### Premium Sound

MSTS™ Tuning Technology together with lossless compression codec Qualcomm® aptX™ HD codec & AAC codec enables you to listen premium Hi-Fi stereo sound.

With built-in DSP chip, it enables optimal call quality by noise reduction and echo cancellation.

#### Supporting Android & iOS App.

You can use many kinds of useful functions like as below, if you download MobiFren\_SM from the store.

\* App function may be changed due to mobile phone OS update or improving or adding function.

Caller ID TTS	If you press any button of the headset on incoming call, your mobile reads you the caller's name. (In case of iPhone, it reads caller ID together with bell sound and you can listen via earphone too)
TTS message	If there's new message of SNS or Line, it reads you the message, together with
(SMS, Line or other SNS)	vibration.
Mobi Health	It counts steps, walking distance and measures calorie consumption like as pedometer.
Find mobile phone	If you can not remember well where you placed mobile phone, it helps you to find out your mobile phone by pressing headset button.
Hot call	If you register the number in advance that you call frequently, you can call easily by pressing headset button.
Last Call (Available with Android)	You can call to the lastest number directly.
Present time notice	By pressing headset button for 2 times consecutively, it notices you the present time.
Voice Memo (Available with Android)	It's to record the conversation by operating headset button simply during a call.

#### Anti Phone loss function

If your mobile phone is out of ranges from the headset, it alarms you by vibration for 1 minute to prevent the loss of your mobile phone.

#### Vibration on incoming call

The headset alarms you by vibration if there's incoming call.

#### Anti Phone loss function

If your mobile phone is out of ranges from the headset, it alarms you by vibration for 1 minute to prevent the loss of your mobile phone.

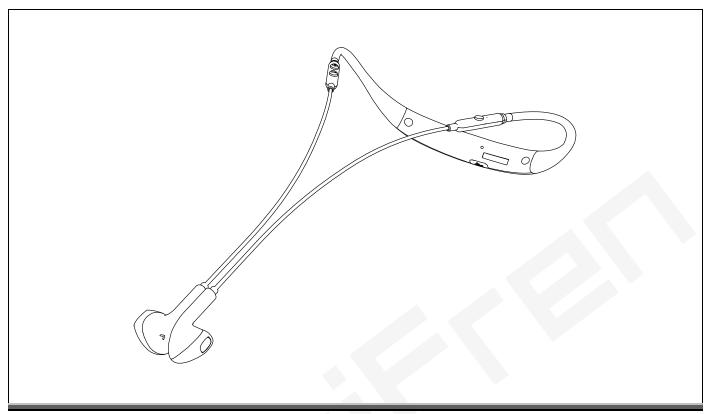

- Multi Point
- Supporting Bluetooth 5.0(BDR,EDR)
- Voice prompt
- Supporting firmware upgrade
- \* Features of this product depend on your mobile phone.

This manual can have different images or contents from the purchased ones due to common edition. This manual can be modified according to company situations.

#### Factory Reset

## Getting started with your MobiFren

MFB-C7200 series are easy to use for everyone.

#### 1. Pairing to your mobile phone

\* Before you use MobiFren Bluetooth earphone, you need to pair it with your mobile phone or Bluetooth enabled device.

#### Step 1: Entering into pairing mode with Bluetooth headset.

- Press button till LED is continuously on for about 4 seconds at power-off. (You need to pair within 3 minutes.)

#### Step 2: Pairing by mobile phone

① Activate Bluetooth function in your mobile phone according to phone manual and search Seiren Soul (Air / Muse) and select, then, it shows "Pairing".

(Some mobile phone needs Pin code, then, enter "0000")

② If pairing is successful, it shows that "Connected to phone and media audio" and blue LED glitters for 5 times. Now, it's ready to use.

#### \* Pairing will be more easy with MobiFren\_SM application

- ① Install "MobiFren\_SM" from Google play store / App store.
- 2 Press the first menu "Pair (Connect) headset ", then it goes to Bluetooth setting.
- 3 Activate Bluetooth and search headset.
- ④ Select " Seiren Soul (Air / Muse)" from the searched devices, then it pairs.

#### \* Connecting app for iPhone

To use convenient app for iPHone, you need to connect "MobiFren\_SM" app after connecting headset to iPhone.

After connecting Seiren Soul (Air / Muse), there's "Bluetooth connection" pop-up window after running "MobiFren\_SM" Then, connection is completed if you select "connection by pair"

(If you run app within 1 minute after connection, there's "Bluetooth connection" pop-up window automatically. If it passes for 1 minute, please press any button of the headset and run "MobiFren\_SM" Then, there's pop-up message to connect.)

#### William Willia

- ① Menu button, Setting, Bluetooth on wallpaper.
- ② Drag down the screen and press Bluetooth icon for 1 second.
- ③ Run MobiFren\_SM app. and select the menu " Pair (Connect) headset".
- \* Pairing process may be different from mobile phone makers. Please refer to mobile phone's manual.
- \* In case of Iphone, 2 devices with model name and model name2 are connected in bluetooth setting (If model name is Seiren Soul, 2 devices are named Seiren Soul and Seiren Soul2).

(Pairing process may be different from mobile phone makers. Please refer to mobile phone's manual.)

#### 2. Multi point setting

#### \* It's possible to pair up to 8 Bluetooth enabled devices and can use 2 devices simultaneously.

(App related functions which are not Bluetooth basic functions like as call or listening music shall be connected with only one device, so, we recommend to connect with one mainly used device.)

#### 1) Setting Multi point

- Please pair MFB-C7200 to the first device according to the pairing process. (Refer to pairing process P.8)
- Turn off MFB- C7200.
- Please pair MFB- C7200 to 2nd device according to pairing process.
- Then, turn off MFB- C7200 and turn on again, it will be connected 2 devices.

#### 2) To use multi point

- At the status of connecting two devices, press ① to answer a call if there's incoming call.
- At the status of connecting two devices, if you press © then, you can listen the music for the device that was played lately.

#### 3. Call

#### 1) Answering a call

- Press one of these  $\bigcirc / \oplus / \bigcirc$  3 buttons at your convenience to answer a call.
- Vibration on incoming call: There's vibration in every 2 second, if there's incoming call.

  You can set ON/OFF in app.

#### 2) Ending a call

- Press D button to end a call.

#### 3) Rejecting a call

- During call, press Dutton for about 1 second.

#### 4) Converting a call

- During call by mobile, press ① button to convert to headset (To call by mobile again, use your mobile phone menu.)

#### 5) Volume control

- With 🛨 / 🖯 button, you can control volume.

#### 6) Microphone Mute

- During call, if you press  $\bigcirc$  button for about 1 second, the mic becomes mute.
- During mute, it will be released, if you press  $\bigcirc$  button for about 1 second.

#### 7) Waiting a call and put a call on hold

- This feature allows you to put a call on hold during conversation and answer a waiting call.
- Give the  $\oplus$  a long press (press approximately 1 second) to put an active call on hold and answer a waiting call.
- Give the 

  a long press to switch between two calls.
- Just press © shortly to end a call.

#### 4. Factory Reset

Press  $\oplus$   $\rightarrow$   $\ominus$   $\rightarrow$   $\oplus$  buttons in order and then  $\oplus$  +  $\ominus$  buttons simultaneously, and violet signal lights flicker and MFB-C7200 is initialized to the factory shipment state.

Please pair the headset again after factory reset.

#### 5. Firmware Upgrade

- The USB port can be used for charging and data communication.
  - 1) Consumers can use the USB port only for charging purposes.
  - 2) manufacturers and authorized service centers use part of the DATA communication for firmware modifications and so on.

#### 6. Changing Music Mode

• You can use 6 music modes and 1 user mode. However, MMCX type earphones differ in music mode support.

While playing music, if you press  $\odot$  button and  $\oplus$  or  $\ominus$  button at the same time for 1 second, the Music Mode will be changed in order.

All-in-one type	MFB-C7200S/A	MMCX switch type	MFB-C7200M
Default mode	6 Music mode + 1 User mode	MobiFren earphone	6 Music mode + 1 User mode
	r oser mode	Other brand's	1 User mode (On/Off)

• MSTS™ Tuning technology together with lossless compression codec Qualcomm® aptX™ HD & AAC codec enables you to enjoy not only MobiFren sound but similar sound of various kinds of famous high end earphones and you can select it as your preference. Now you will enjoy the music with the optimum sound quality like as CD in wireless.

#### Music Mode

MFB-C7200S/A	Default mode	<ul> <li>Mobifren Mode: MobiFren Sound</li> <li>Reference Mode: Natural sound using faithfully the original sound</li> <li>Space Mode: Extraordinary sound creating a wide sense of space</li> <li>Tender Mode: Sound of tone color whispering softly into ear</li> <li>Enhance Mode: Sound of tone color even reproducing vividly breath</li> <li>User Mode: Sound created by user</li> <li>Cinema Mode: Surround stereo sound suitable for watching movies</li> </ul>
MFB-C7200M(MMCX)	MobiFren earphone	<ul> <li>Mobifren Mode: MobiFren Sound</li> <li>Reference Mode: Natural sound using faithfully the original sound</li> <li>Space Mode: Extraordinary sound creating a wide sense of space</li> <li>Tender Mode: Sound of tone color whispering softly into ear</li> <li>Enhance Mode: Sound of tone color even reproducing vividly breath</li> <li>User Mode: Sound created by user</li> <li>Cinema Mode: Surround stereo sound suitable for watching movies</li> </ul>
	Other brand's	■ User Mode : Sound created by user

- \*\* There are several kinds of bit rate even though it's the same MP3 file. If the file source is higher bit rate(320K) for listening, you can feel the real worth for our Bluetooth earphone. And, if the speaker is not good even with good source, the sound quality will not be good, and if the speaker is good with inferior source, the sound quality can't touch to the listener. The MobiFren earphone of optimized tuning supplies you high quality sound, but, we also recommend you to use high resolution source file (320K) to enjoy touching sound.

Because switch type model is different in the characteristics between basic earphone and other brand's, it's required that high premium sound be appreciated through normal music modes by phone's application adjustment. (On the application's connection to phone, select the currently used earphone by "Applicaion > Menu > Setting > earphone selection".)

#### 7. Mobile phone Anti-loss

- If your mobile phone is out of some ranges from the headset, the headset alarms you with vibration for 1 minute to prevent phone loss. Press any button to stop vibration.

#### 8. Using Android & iOS application

 For more convenient and easy use of the headset, please download "MobiFren\_SM" at Google play store or Apple App store.

(Minimum supporting specification: higher than iPhone 4S / Recommend: higher than iPhone 5)

\* Detailed operation for each function shall be different between Android and iOS app.

#### TTS caller ID

To answer a call, press  $\oplus$  or  $\ominus$  button deeply on the headset, then the caller's name is indicated by the speaker of the mobile phone.

#### Message TTS (SMS/ Kakao Talk/ Line)

After setting Message TTS, in automatic mode, it reads you message after the setting time, and in manual mode, you can hear message by using headset button. (When you set this function, it goes to mobile phone's accessibility menu automatically, then, select MobiFren\_SM in accessibility service.)

Stop while playing TTS: TTS playing stop.

While reading TTS message, press  $\bigcirc$  /  $\bigcirc$  button to stop playing.

Manual mode: It reads you message by pressing headset button.

Press  $\odot$  button and  $\oplus$  or  $\ominus$  button shortly at the same time at standby.

#### Mobi Health

You can control Start/Stop and check walking steps, consumption calorie and walking distance with application like as pedometer.

(It considers as a step, after you walk at least 7 steps for the beginning.)

#### Find mobile phone

If you can't remember well where you placed your mobile phone, press  $\oplus$  and  $\ominus$  buttons at the same time for about 1 second to find out your mobile phone. Then, the mobile phone will ring.

#### Hot Call (Prompt call)

Register one frequent call number and press  $\oplus$  button shortly for 2 times. (In case of iPhone, it needs to press Call button in your mobile.)

#### Last call (call to the latest number) (Android only)

Pressing button  $\bigcirc$  shortly two times, the latest caller is read(through earphone) while it's optional to select the expected caller from caller lists by pressing up and down button away from the unexpected callers, and then pressing button  $\bigcirc$  or  $\bigcirc$  deeply, the chosen caller can be called back. In driving or not seeing mobile screen, it's available to call by the latest call lists with headset simply.

#### Present time notice

You can hear present time via headset if you press ① button for 2 times consecutively.

#### Voice Memo (Android only)

It's useful to record voice memo by pressing ① button for 1 second and releasing during a call. You can record it by pressing the same ① button during a call or not.

#### Anti Mobile Phone loss

If your mobile phone is out of some range from the headset, the headset alarms you with vibration for 1 minute to prevent phone loss.

#### Available for siri and voice talk mode

In the ON state of talk mode function, voice input button is called repeatedly and continuously like as if talking by pressing headset ① button deeply.

To stop talking, press any buttons.

#### 9. Couple listening mode(MobiShare)

This function is used when two people want to listen to music on one's mobile phone. If you connect two earphones with MobiShare function in couple listening mode, you can enjoy the same music with your earset.

#### Entering Couple Listening Mode

Press and hold  $\odot$  +  $\oplus$  simultaneously while both headphones are on.

When a beep sounds and the blue LED and the red LED alternately flash, it enters into a mode to connect the two products. Wait for a while, "tortoise" sound and the LED turns off and both products are connected. After connecting, you can enjoy the same music on both headsets by playing music.

#### Releasing Couple Listening Mode

To turn off the Couple Listening mode, press and hold the ● + ⊖ button. The connection is released after a beep is heard.

- \* If the distance between the connected devices is more than 5m away while operating the couple listening mode, the phenomenon such as sound discontinuity may occur.
- \* If the sound is cut off when using with a specific phone such as iPhone, it occurs because the phone gives the streaming signal even when the music is stopped. In this case, if you disconnect the Bluetooth connection from the slave, it will work normally. (When you are connected to Couple Listening Mode, the one that plays music first becomes the master, and the other mobile becomes the slave.)

Pairing mode	Blue light ON

## **FAQ & Troubleshooting**

#### • I hear crackling noises.

For the best audio quality, always locate your headset close to mobile phone.

#### • I cannot hear anything.

- Increase the volume on the headset.
- Ensure that the headset is paired with the phone.
- Make sure that the phone is connected to the headset.
- If the headset fails to connect either when you pressed MFB or through your mobile phone's Bluetooth menu, Please refer to set up "Pairing mode" in Page 8.

#### • I have problems with pairing even though my phone indicates otherwise.

Please delete the headset paired in your mobile and pair the headset again. Please refer to set up "Pairing mode" in Page 6.

#### • Will the MobiFren MFB-C7200 work with other Bluetooth equipment?

MFB-C7200 is designed to connect with Bluetooth mobile phone. You can also connect to a Bluetooth device that supports the Bluetooth stereo headset handsfree profile.

#### • Is the enclosed charging cable for only specified device?

It's compatible with all standardized micro usb charger, and in general, compatible with Android mobile phone charger.

When you use the headset in the car, the handsfree can be affected by the internal noise.

## Handle MobiFren with care

## **OFF**

Always store the MobiFren MFB-C7200 with the power off and protect safely when it's not in use.

Avoid storage at extreme temperature.

(above 60  $^{\circ}$ C/ 140 $^{\circ}$ F -including direct sunlight -or below -20  $^{\circ}$ C / - 4  $^{\circ}$ F)

This can affect the MobiFren's battery life and may be the cause of malfunction.

High temperature may also degrade performance.

Do not expose the MobiFren MFB-C7200 to rain or other liquids

Prevent baby, children or pets to bite or suck this headset.

Please do not disassemble at user's option.

Please make sure to use certified charger. (Rated Voltage: 5V)

<sup>\*</sup> Operation time may be variable, depending on connected device or setting status.

## Certification and safety approvals

#### **FCC ID: UZCMFB-C7200**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with RF exposure requirement.

#### Made in Korea

In accordance with the R & TTE Directive 1999 / 5 / EC of 09. March 1999

### Warranty

- \* The conditions and our responsibilities under this warranty are as follows:
- The warranty is limited to the original purchaser.
- A copy of your receipt or other proof of purchase is required.
- The warranty is void if the serial number, date code label or product label is removed, or if the product has been subject to physical abuse, improper installation, modification, or repair by unauthorized third parties.
- The responsibility of MobiFren products shall be limited to the repair or replacement of the product at its sole discretion.
- Any implied warranty on MobiFren products is limited to one year from the date of purchase on all parts, including any cord and connector. But, battery warranty is limited to 6 months.
- Specifically exempt from any warranty are limited-life consumable components subject to normal wear and tear, such as microphone windscreens, ear cushions, decorative finishes, batteries, and other accessories.
- MobiFren is not liable for any incidental or consequential damages arising from the use or misuse of any MobiFren product.
- This warranty gives you specific rights and you may have other rights which vary from area to area.
- Unless otherwise instructed in the User Manual, the user may not, under any circumstances, attempt to perform service, adjustments or repairs on this unit, whether in or out of warranty. It must be returned to the purchase point, factory or authorized service agency for all such work.
- MobiFren will not take any responsibility for any loss or damage incurred in shipping. Any repair work on MobiFren products by unauthorized third parties voids any warranty.
