## Installation Instructions for Hotel Staff | Sound Rise Classic
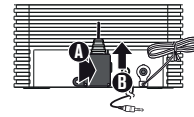

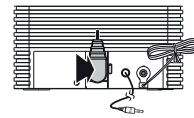

### System Hardware Setup

The Hotel version of Sound Rise Classic includes a bracket to ensure the DC power jack cannot be removed.
For additional security, it also includes a lanyard to allow tethering of the Sound Rise Classic to furniture if required. See instructions below for fitting.
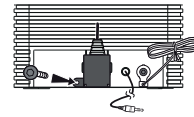

*1* Insert the DC plug of the supplied power adaptor into the DC IN jack on the back of the unit.
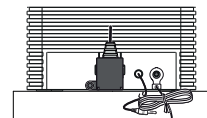

*2* Place the bracket onto the DC plug. Insert the tabs of the bracket into the slots of the system ( Ⓐ ), and push the bracket up to lock it in place ( Ⓑ ).
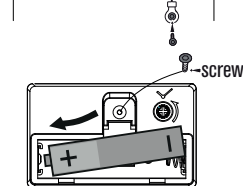

*3* Align the screw hole on the bracket and the unit, and tighten the screw to fix the bracket to the unit.

*4* Fix the end of the lanyard to a secure and firm place using the supplied screw. (Or other screw if applicable for fixing on different places.)

*5* Unscrew and open the battery door and then insert the battery into the battery compartment, tighten the screw on battery door.

*6* Leave the quick start guide in the guest room with the Sound Rise Classic.

## Setting the Time

For the first time setup , please set the time of the clock.
Rotate the TIME SET knob in the direction of arrow on the back of the unit to adjust the pointers to the desired time by using a Philips screw driver.
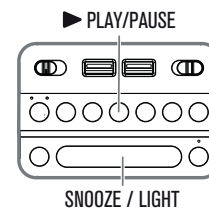

TIME SET

## System Reset

Turn on the unit, then press and hold **SNOOZE / LIGHT** and **PLAY** button simultaneously for 5 seconds to reset the unit to the default settings for a new hotel guest, and the unit will be powered off ( Once reset, both of the indicators will flash once and then switch off. )

► PLAY/PAUSE

**Notes:**

After reseting the unit , the Bluetooth connection and the previous user settings (volume setting) will also be reset to the default setting.

SNOOZE / LIGHT

## Battery Replacement

**Caution**: **To avoid battery leakge, please make sure to replace battery when the battery is low.**

There is a backup battery for keeping the clock time for power outage. When the level of backup battery is low, the power indicator will flash. It is the time to replace the battery.
