RE: CONFIDENTIALITY REQUEST

Gentlemen:

Infinity Metering, Inc. respectfully requests confidentiality of certain materials provided with the submission of the (Tesla TR2) under FCC ID: (V2A-TR2) in accordance with FCC Regulations 0.459. The confidentiality request applies to the (list the exhibits to be held confidential here – see above) contained in this filing and included in the following files.

08-0053 – Schematics.pdf  
08-0053 – Theory of Operation.pdf  
08-0053 – Internal Photos.pdf  
08-0053 – Schematics – 3<sup>rd</sup> Party Confidential.pdf  
08-0053 – System Block Diagram – 3<sup>rd</sup> Party Confidential.pdf  
08-0053 – Theory of Operation – 3<sup>rd</sup> Party Confidential.pdf

Confidentiality of the Internal Photos is being requested because this is a non-consumer device which is not accessible by the general public and is only serviceable by the applicant or designated technicians.

The (Tesla TR2) has been developed at considerable effort and expense by Infinity Metering, Inc. These items are considered as Trade Secrets and therefore public access to the proprietary material could possible result in duplication of equipment that could severely damage the company's business advantage.

I appreciate your assistance in this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "Jason Pintok".

Jason Pintok
