Re: FCC ID: V2A-TR3

To Whom It May Concern:

The following application is submitted on behalf of our client, Infinity Metering, for evaluation of their model TR3 for certification under FCC Part 15.247.

The TR3, Tesla AMR meter is designed to operate with Infinity's Mobile Collector. The meter will transmit reading, tamper, and data logging information to the Mobile Collector for billing and usage analysis purposes.

The TR3 was tested in a configuration representative of typical installation and use. The EUT was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
