Subject: RE: CRESYN CO., LTD. - FCC ID: V2RUTS100 ADDITIONAL INFO

Dear All,

The PC USB charging mode and AC/DC Adaptor charging mode of this device were tested according to FCC P15B for FCC DOC procedure.

I think that these charging modes are FCC class B digital device portion other than the class B computer peripheral portion.

Because when USB charging mode, this device can be only charging the internal battery using USB power without sending or receiving any data from the PC.

So the statement on the sample attestation letter should be changed as below

“ We, the undersigned, hereby attest to the fact that we will apply the Declaration of Conformity procedure to the class B digital device portion of this composite filing.”

Please let me know your opinion regarding this matter.

Best regards,
Harvey Sung
