FCC Compliance Statement

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that
  to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: To assure continued compliance, only use shielded interface cables when connecting to computer or peripheral devices. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Getting Started

1. Plug the adapter into a power outlet and connect the power cord into the DC input of the digital picture frame as illustrated below.
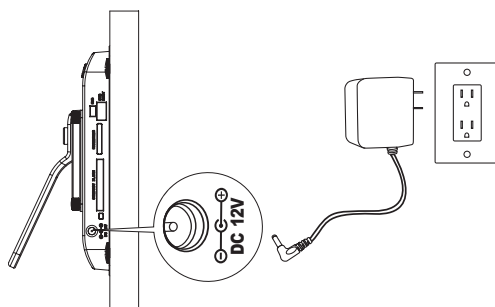

2. The HP Digital Picture Frame is preloaded with pictures that illustrate the basic features of this product. If you want to view these pictures, turn the frame on as illustrated in step 4. The slideshow will begin in a few seconds.

3. Insert a memory card or USB storage device (external memory) containing desired pictures, music, and/or video into the appropriate card slot or USB port as illustrated below. Note: Memory cards and USB storage devices must be orientated correctly.
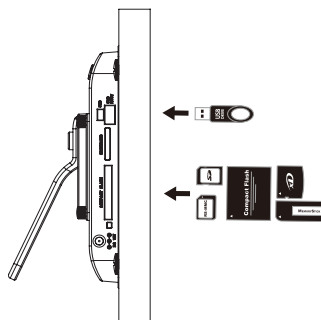

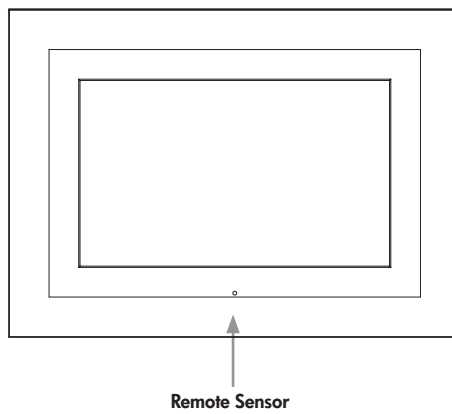

4. Press the POWER button.

3
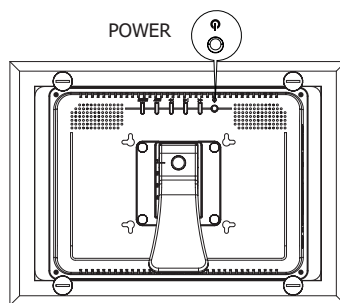

5. A slideshow of your pictures will begin automatically in a few seconds. If music tracks are available on the same external memory device, the slideshow will be displayed with background music unless disabled in the **SETUP MENU**. Enjoy it and have fun!

6. In addition to the remote control, the digital picture frame has basic control buttons on the top of the frame as illustrated below.

	Press the + button to increase volume. Press the - button to decrease volume.

	MUTE
	Press to mute audio. Press again to restore audio.

	EXIT
	Press to exit the current page or mode.

	STOP
	Press to stop slideshow, music, or video playback.

Using the Picture Frame

Main Menu

After the Digital Picture Frame is turned on, the slideshow starts automatically after a few seconds. Press the (EXIT) button to display the Main Menu as shown below.

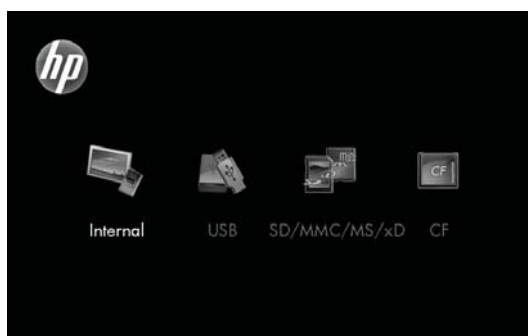

- Use the (◄) and (►) buttons to highlight a mode icon. Press the (ENTER) button to select the desired mode.

- There are 5 modes available: Photo, Video, Music, Time, and Setup.

Memory Source Selection

The HP Digital Picture Frame can playback content from internal and external memory devices such as USB flash drives and memory cards typically used with digital cameras. More than one external memory device can be inserted at any given time. However, content from only one memory source can be selected for playback.

To select the desired picture source:

1. From the Main Menu, press (EXIT) to view the memory source options.
   The memory source options will appear as illustrated below.

2. Use the ◀ and ▶ buttons to highlight the desired memory source icon and press the ENTER button.

Photo mode

The Photo mode allows you to view images in three viewing modes: **Slideshow mode**, **Browse mode**, and **Thumbnail mode**.

- Slideshow mode

There are three ways to enter Slideshow mode.

- Slideshow mode will begin automatically a few seconds after the frame is powered on or when an external memory card is inserted.

- From the Main Menu, select and press the ENTER button.

- From any screen, press the 🖼 button.

- Browse mode

- When in Slideshow mode, press the ENTER button once to enter Browse mode.

- Use the ◀ and ▶ buttons to view previous or next photo.

- Press the ⊕ button to zoom in the photo.

- Press the ↻ button to rotate the image 90 degrees clockwise.

- Thumbnail mode

- When in Browse mode, press the ENTER button once to enter Thumbnail mode.

- Use the ▲ , ▼ , ◀ , and ▶ buttons to move among the images.

- Select a photo and press the ENTER button to start a slideshow with the selected picture.

Deleting photo files from internal memory

Photos can be deleted in both Browse mode and Thumbnail mode.

1. In Browse mode, use ◀ and ▶ to select the photo to be deleted, then press the ⊗ button. Using the ▲ and ▼ buttons, select **YES** in the pop-up window to proceed with the deletion, or **NO** to cancel. Press ENTER to confirm.

7

2. To delete photos in Thumbnail mode, select the photo to be deleted and press the ⊗ button. Using the ▲ and ▼ buttons, select **SINGLE** in the pop-up window to delete the highlighted picture, **ALL** to delete all photos in internal memory, or **NO** to cancel. Press ⊙ to confirm.

▪ This frame only allows deleting files from internal memory.

Copying photo files to internal memory

Photos can be copied in both Browse mode and Thumbnail mode.

First, check to make sure an external memory source is selected (refer to "Memory Source Selection" on page 6).

1. In Browse mode, use ◀ and ▶ to select the photo to be copied, then press the ⊗ button. Using the ▲ and ▼ buttons, select **YES** in the pop-up window to copy, or **NO** to cancel. Press ⊙ to confirm.

2. In Thumbnail mode, select the photo to be copied and press the ⊗ button. Using the ▲ and ▼ buttons, select **SINGLE** in the pop-up window to copy the highlighted photo, **ALL** to copy all photos to internal memory, or **NO** to cancel. Press ⊙ to confirm.

▪ This frame only copies files from external memory to internal memory.

Video mode

Viewing a video file

1. From the Main Menu, select [image] and press [ENTER]. The first video file will start playing automatically.

2. Press [EXIT] to show the video file list. To play a different video, use the [▲] and [▼] buttons to select it, then press [ENTER] to begin playback.
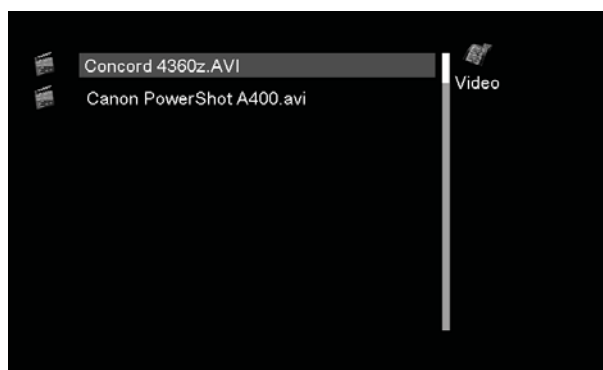

- Use the [◄] and [►] buttons to fast forward and reverse the video.
- Use the [◄+] or [◄−] buttons to adjust the audio volume.
- Use the [▲] and [▼] buttons to skip to the next video file or return to the previous video.

Deleting video file from internal memory

1. When in Video mode, press [EXIT] button to display the video file list if a video is playing, then use the [▲] and [▼] buttons to select the video file to be deleted from internal memory.

2. Press the [⫶/✕] button, then use the [▲] and [▼] buttons to select **YES** to delete the file, or **NO** to cancel. Press [ENTER] to confirm.

- This frame only allows deleting files from internal memory.

Copying video files to internal memory

1. When in Video mode, press (EXIT) button to display the video playlist if a video is playing, then use the (▲) and (▼) buttons to select the video file to be copied to internal memory.

2. Press the (▣/✕) button, then use the (▲) and (▼) buttons to select **YES** to copy the file, or **NO** to cancel. Press (ENTER) to confirm.

▪ This frame only copies files from external memory to internal memory.

Music mode

Music mode allows you to play audio files from internal memory or an inserted memory card. In this mode, the audio spectrum (if enabled) and play time are shown at the right side of the screen, while the playlist is displayed on the left.

> ▪ This frame only supports the MP3 audio file format.

Playing music

1. Select [icon] from the Main Menu and press the (ENTER) button.

2. Use the (▲) and (▼) buttons to select a music file from the playlist on the left, then press (ENTER) to start playback.

- Use the (◁+) or (◁−) buttons to adjust the audio volume.

- Press the (◁×) button once to mute the audio, press (◁×) again to restore the audio.

Deleting music files from internal memory

1. When in Music mode, use the (▲) and (▼) buttons to select the music file to be deleted from the playlist

2. Press the (□/×) button, then use the (▲) and (▼) buttons to select **YES** to delete the music file, or **NO** to cancel. Press (ENTER) to confirm.

> ▪ This frame only allows deleting files from internal memory.

Copying music files to internal memory

1. When in Music mode, use the ⬆ and ⬇ buttons to select the music file to be copied to internal memory from the playlist.

2. Press the ⏸/✕ button, then use the ⬆ and ⬇ buttons to select **YES** to copy the music file, or **NO** to cancel. Press ENTER to confirm.

   ▪ This frame only copies files from external memory to internal memory.

Time mode

The Time mode has 3 different viewing styles available: a monthly calendar and digital clock with a photo slideshow, a date & time display with a photo slideshow, or an analog clock with date.

- To enter the Time mode, select ⊙ from the Main Menu and press the (ENTER) button.

- Use the ⊙ and ⊙ buttons to view the previous month or the next month.

- Use the ⊙ and ⊙ buttons to change the slideshow photo (for calendar modes with slideshow only).

- Press the (ENTER) button to switch between the three viewing modes.
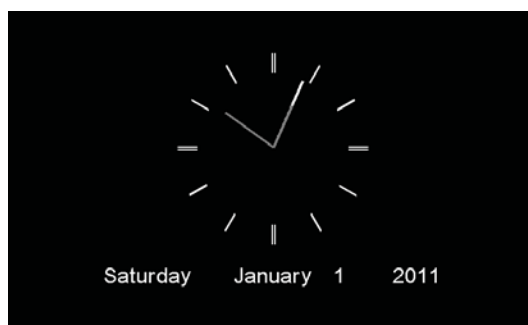

Setting the Date, Time, and Alarm

1. Press (SETUP) to display the Setup menu.

2. Use the ▲ and ▼ buttons to select **Time Setup**, then press (ENTER).

3. Use the ▲ and ▼ buttons to highlight the setting you would like to change (e.g. Date, Clock Time, or Alarm Time), then press (ENTER).

4. Use the ▲ and ▼ buttons to move to different fields. Use the ◄ and ► buttons to change the value in each field. Press (ENTER) again to save.

Setup Menu

The Setup menu is displayed by pressing the (SETUP) button.

The table below provides details of the settings available from with each mode.

Audio File Formats	MP3
Video File Formatss	MPEG-4, Motion JPEG
User Interface	
On-Screen Display Languages	English, French, Spanish, German, Italian, Portuguese, Dutch, Russian, Turkish, T. Chinese

Frequently Asked Questions

Q: How do I set up my Digital Picture Frame?

A: It is very simple to get your Digital Picture Frame out of the box and running in just a few minutes. Just plug the power adapter into the Digital Picture Frame and into a standard wall socket. Insert a memory card into the appropriate card slot on the side of the Digital Picture Frame and turn it on. Your first slideshow will automatically start to play.

Q: What memory cards can the Digital Picture Frame read?

A: Compatible memory cards include CF, SD/SDHC, MMC, xD, and MS.

Q: I set up the Digital Picture Frame; why does it not turn on?

A: The adapter may be not securely connected to the Digital Picture Frame or wall socket, or the Power Switch may not be on. Please check if the adapter is properly plugged to the Digital Picture Frame and the wall socket.

Q: I have a memory card in the Digital Picture Frame; why can't I view my photos?

A: First, check whether the memory card is one of the listed above and the images are one of the formats listed in the **Specification on page 18** . Second, turn the Digital Picture Frame off and make sure that the memory card is facing the correct direction and is inserted all the way into the card slot and. Third, turn the Digital Picture Frame on; you should see the Select Mode Screen. Follow the **Card Selection** instructions to select your memory card.

Note: Some digital cameras save images in other formats. Please refer to your camera's manual if your photo format is not listed in the **Specifications**.

Q: Why is the picture display slower with some pictures and faster with others?

A: Higher resolution pictures will take longer to display. Try to use lower resolution pictures or down sampling your images. See your camera's operating manual for details on downsizing your photos.

Q: Does the Digital Picture Frame support all JPEG files?

A: No. The Digital Picture Frame supports the baseline JPEG files taken by a digital camera. It may not read all image files downloaded from the Internet or from other graphic applications.

Cleaning and Care Tips

√ Please power off the HP Digital Picture Frame before cleaning.

√ **DO NOT** push on the screen too firmly.

√ **DO NOT** spray or pour liquid cleaning agents directly on the screen or frame.

√ **DO NOT** use ammonia, alcohol, or abrasive detergent cleaning agents.

Cleaning the Screen:

1. Wipe screen with a clean, soft, lint-free cloth to remove dust and loose particles.

2. If further cleaning is required, apply an appropriate cleaning agent (approved for LCD displays) to a clean, soft, lint-free cloth and wipe the screen.

Cleaning the Frame and Backing:

1. Use a clean, soft, lint-free cloth to remove dust and loose particles.

2. If desired, apply an appropriate cleaning agent to a clean, soft, lint-free cloth and wipe the appropriate surfaces.

Getting Help

Should your HP Branded Product require service within the Warranty period, please contact the original point of purchase or an authorized HP reseller in your country. If service is not available at those locations, please contact an HP Branded Product warranty agent from the support contact list provided on this document. A support agent will work with you to troubleshoot your issue and if necessary, issue a Return Material Authorization (RMA) number in order to replace your HP Branded Product. For warranty claims, you will be required to provide a copy of your original dated sales receipt as proof of purchase and the issued RMA number. You will be responsible for shipping charges when shipping the product to the service center. The support agent will provide you with an address and you will also be responsible for any shipping charges to the warranty service center. Once your product is received by the support center, a replacement frame will be shipped back to you within 5 business days.
