

Letter of explanation

To: EASADMIN

Date: 02-06-08

Whom it may concern,

For the project with FCC ID: V4P-MX133 two exhibits should be replaced:

1. the manual; the original manual contained text about 20cm distance which is not applicable.
2. test report; the original report did not contain text about the receiving test antenna.

Revised versions of the exhibits have already been uploaded.

Best regards,

Bert Vos
