iLane Label Location

Note:

The iLane is little smaller than the average palm size, therefore the label has only basic information such as FCC ID and the IC ID etc. It is located at the back of the device inside a cover which can be removed by pushing a knob down and sliding it out. User may need to access the internal connector.

The detailed FCC statement as required by FCC 15.19 and 15.105 (b) have been placed in the user guide in the regulatory information section. Please refer to page 52 section 6.1 of the user guide.
