Safety Precautions

Location Cautions

1. Keep the device away from direct sunlight, excessive dust, moisture and heat.
2. Keep the device from the electrical devices that might introduce interferencesuchas microwave ovens and blow dryers.

Cleaning Cautions

1. Do not use industrial strength or abrasive cleaner as it may damage or scratch thescreen.
2. Do not immerse device into any kind of liquid.
3. Do not spray water or cleaner into card reader or ports.
4. To clean screen, apply distilled water or mild glass cleaner onto a soft, link-freeclothand gently wipe screen.
5. To clean tablet, apply distilled water or plastic-safe cleaner onto a soft, lint-freeclothand gently wipe tablet.

Usage Tips

1. Avoid exposing the device to an excessively hot, humid, dusty, or strongelectromagnetic environment.
2. Do not vibrate, shake, or drop the device.
3. Do not plug or unplug any part of the device while it is powered on. This maycausedamage to an internal circuit.
4. Please contact PAX technical support for assistance with the device.

FCC Regulations

This device complies with part 15 of the FCC Rules. Operation is subject to thefollowing twoconditions: (1) This device may not cause harmful interference, and (2) this device must acceptany interference received, including interference that may cause undesired operation.

This device has been tested and found to comply with the limits for a Class B digital device,pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protectionagainst harmful interference in a residential installation. This equipment generates, uses and canradiated radio frequency energy and, if not installed and used in accordance with the instructions,may cause harmful interference to radio communications. However, there is no guarantee thatinterference will not occur in a particular installation If this equipment does cause harmfulinterference to radio or television reception, which can be determined by turning the equipmentoff and on, the user is encouraged to try to correct the interference by one or more of thefollowing measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver isconnected.

-Consult the dealer or an experienced radio/TV technician for help.

Caution: Changes or modifications not expressly approved by the party responsible forcompliance could void the user's authority to operate the equipment.

FCC RF Exposure Information (SAR)

This device complies with FCC radiation exposure limits set forth for an uncontrolledenvironment. In order to avoid the possibility of exceeding the FCC radio frequency exposurelimits, human proximity to the antenna shall not be less than 20cm (8 inches) during normaloperation.
