

1. Contents Checklist

Please check the components after unpacking. If any one of them is missing, or if there is a page missing from the product manual,ect.,please contact the dealer.

Name	Qty.
D195 Mobile payment terminal	1
AC Power Adapter	1
USB Cable	1
Battery	1
Product Manual	1

2. Installation

SAM/SIM card:

- 1) Remove the battery cover.
- 2) Remove the battery.
- 3) Insert the SAM/SIM card to the corresponding card slot (PS: The default hardware configuration only support SIM 1 slot) .

Battery:

Alignment battery tip side to battery tip in terminal and insert.

3. Instruction

1) Power ON/OFF

Power on: Plug in power adapter or insert the battery, Press  button for 3 seconds until the PAX LOGO display on LCD.

Power off: Press  button for 3 seconds until the "Power off" display on the LCD ,then press "ENTER", then the POS terminal is being turned off.

2) IC Card

Put IC card chip side upward, push-in IC card slot and to bottom.

3) Contactless Card

The card read area is above the LCD, Put the card above the LCD.

4) Battery Charge display

Connecting USB port with external adapter can charge the battery. And there are charging display.

5) Battery Charge style

Please use the original adapter, if you need to charge.

Working Environment:

Temperature: 0°C~45°C(32°F~113°F)

Humidity: 10%~93%(non-condense)

Storage Environment:

Temperature:-20°C~70°C(-4°F~158°F)

Humidity.:5%~95% (non-condense)

4. Installation and Usage Tips

- 1) Avoid putting the terminal in direct sunlight, high temperature, moist, or dusty environment.
- 2) Forbid non-professional to repair the terminal.
- 3) Before insert the card, please check internal and around of IC card slot. if you found some suspicious objects , must report to related administrator.

5. Lithium Ion Battery Usage Tips

WARNING:

- 1) Don't use the battery in sunlight or smoke, dust environment.
- 2) Prohibited to strike, squeeze and tread on battery or throw it into the liquid and fire.
- 3) If battery is impressive, deformed, damaged or exothermic seriously,please stop using immediately and replace it!
- 4) If the continuous working time is only half of new one, the battery life may be end. Please replace it!
- 5) Must use the specified battery model and charger, otherwise there will be explosion.
- 6) Charging time can not exceed 24 hours. If the battery is out of power, please recharge in time. Avoid damaging the battery in over-charge and over-discharge.
- 7) If be non-use for long time, please recharge the battery per 6 months to avoid shortening its life.
- 8) Suggest to replace it when the battery have been used for 2 years.
- 9) Be sure to follow the instructions to dispose the wasted batteries.

6. Icon shows

Do not throw away, need professional recycling.

Class II Equipment

For indoor use only

FCC Regulations

This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiated radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

RF Exposure Information (SAR)

The SAR limit of FCC is 1.6W/kg averaged over one gram of tissue. For body-worn operation, this device has been tested and meets the FCC exposure guidelines, when used with an accessory, the accessory should not contain any metal element and positioned minimum of 5 mm from the body. RF exposure compliance with any accessory that contains metal was not tested and certified, and use of such accessory should be avoided.

IC Statement

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions:

- 1) this device may not cause interference, and
- 2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- 1) l'appareil ne doit pas produire de brouillage, et
- 2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

The device is going on be operated in 5150~5250 frequency range. It is restricted indoor environment only in Canada. Le dispositif fonctionne dans une gamme de fréquences 5150~5250. L'environnement intérieur est restreint seulement au Canada.

RF Exposure Information (SAR)

This equipment complies with RSS 102 radiation exposure limits set forth for an uncontrolled environment. End user must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

The portable device is designed to meet the requirements for exposure to radio waves established by the ISED. These requirements set a SAR limit of 1.6 W/kg averaged over one gram of tissue. The highest SAR value reported under this standard during product certification for use when properly worn on the body.

Ce matériel est conforme aux limites d'exposition aux radiations RSS 102 fixées pour un environnement non contrôlé. L'utilisateur final doit suivre les instructions opérationnelles spécifiques pour satisfaire à la conformité à l'exposition RF. Cet émetteur ne doit pas être co-localisé ni fonctionné conjointement avec aucune autre antenne ou émetteur.

L'appareil portable est conçu pour répondre aux exigences relatives à l'exposition aux ondes radio électriques établies par l'ISED. Ces exigences fixent une limite de SAR de 1,6 W/kg moyenne de plus d'un gram de tissu. La valeur SAR la plus élevée signalée en vertu de cette norme pendant la certification du produit à utiliser lorsqu'elle est correctement portée sur le corps.

FCC Supplier's Declaration of Conformity

Smart Mobile Payment Terminal / D195

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC ID and IC ID can be found by opening the battery cover.
