Re: HAC 5G NR Attestation

FCC ID: V65C6930

To whom it may concern:

We, Kyocera Corporation, hereby declare that the test results using ABM1 values obtained from VoLTE connections over LTE bands and ABM2 values for 5G sub 6 connections over the same bands provides a reasonable representation of the HAC rating over the 5G sub 6 connections shown in report number HFBFJZ-WTW-P21050403B-1.

Sincerely,

A handwritten signature in black ink, appearing to read "Douglas Dunn", written over a horizontal line.

Douglas Dunn
