Re: HAC 5G NR Attestation - FCC ID: V65E7110

To whom it may concern:

We, Kyocera Corporation, hereby declare that the test results using ABM1 values obtained from VoLTE connections over LTE bands and ABM2 values for 5G sub 6 connections over the same bands provides a reasonable representation of the HAC rating over the 5G sub 6 connections shown in report number HF200605C24-1 R1.

Sincerely,
