Dear Claire & Thu,

You are listed as the Technical Contact for the above referenced TCB application. The following items need to be resolved before the review can be continued:

1. The Users Manual has locations for the FCC ID Number, HAC rating numbers, the SAR values and the Antenna Separation distance, but the numbers are represented by x's. If these values are to be included in the Manual, the FCC requires that the numbers be correct. Please provide an updated Users Manual exhibit with the actual measured values in place of the x's.

<answer>pls see revised manual

2. With the Grant deferral date of July 26, 2010 and the Short-term Confidentiality request for 135 days, please confirm that the date to release the STC exhibits is December 8, 2010.

<answer>135 days after grant date 7/26 should be December 8, 2010.

3. The Confidentiality Request Letter exhibit lists the Adjustment Procedure (Tune-Up Procedure) as an exhibit to be held as confidential; however this exhibit was not submitted in this application. Please submit the Tune-Up (Adjustment) Procedure exhibit.

<answer>attached.

4. The online Application forms indicate that Compliance Certification Services (Thu Chan and Claire Hoque) are the representatives for this application; however the Letter of Authorization appoints only Comptest as the authorized representative. Please either submit another Letter of Authorization, indicating that Thu Chan and Claire Hoque of CCS are also authorized, or allow me to update the application forms to change the authorized persons to be a specific individual(s) from Comptest.

<answer>we will send you CCS auth. Letter early next week, pls review the first 3 questions first to see if you still have issues or not.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.

Best regards,

Chris Harvey
