Subject: Common documentation for a reader group

Dear Gentlemen,

For related readers we use one manual. That is the case when only film, color or name is different, but hardware, software and handling are the same.

This is the case for:

Model	FCC ID
UDT-100L - 17L/UD/U/H/CS1 ARE DT1 - 17L/A/U/H ➔ "Installation Guide ARE DT1_LF_09_A17.pdf"	V7IU DT100L V7IAREDT1LF-1
UDT-100H - 22L/UD/U/H/CS1 ARE DT1 - 22L/A/U/H ➔ "Installation Guide ARE DT1_04.pdf"	V7IU DT100H V7IAREDT1HF-1
ARE i2 - 17X/RS232 ARE i2 - 23X/RS232/S ➔ "Installation Guide ARE i2-LF RS 232_12.pdf"	V7IAREI2LF-4 V7IAREI2LF-3
URH 1LL - x/U/C/B/H/Li/CS2 URH 1LA - x/U/C/B/H/N/CS2 ARE H9 - FullISO/A/U/C/B/H/Li ➔ "Manual ARE H9 Full-ISO 008.pdf"	V7IURH1LL V7IURH1LA V7IAREH9LF-1
URH 1HL - x/F/U/C/B/H/Li/CS5 ARE H9 - HF/A/F/U/C/B/H/Li ➔ "Manual ARE H9 HF 005.pdf"	V7IURH1HL V7IAREH9HF-1
ARE H5 - FullISO/E/A/i/B/U/D/Le/PT1 ARE H5 - FullISO/E/A/i/B/U ➔ "Manual ARE H5 english_15.pdf"	V7IAREH5-1 V7IAREH5-2

For software with additional commands or menu points we use additional manuals to the basic manual.

Best Regards

Norbert Knapich
