Smart outlet	Used to plug in your device and control your device on your smartphone. Each outlet is independent. You can control it by the Tenda Beli App.
Smart USB port	Used to charge your tablet, smartphone or other devices. You can control it by the Tenda Beli App. Output: 5 V/2.4 A each, 5 V/2.4 A total.

Maximum power of the Smart Wi-Fi Power Strip:

Standards	Model	SP15/SP18
US		1875 W

2. Configure the device

Tips:

- The Smart Wi-Fi Power Strip only supports 2.4 GHz Wi-Fi network.
- The default SSID (Wi-Fi name) of the Smart Wi-Fi Power Strip is **Tenda_Power Strip_XXXX.XXXX**. XXXX indicates the last four characters of its MAC address which can be found on the device.

- Download the **Tenda Beli** App onto your mobile Wi-Fi-enabled device, such as a smartphone, by searching for **Tenda Beli** in the **App Store** or **Google Play**, or by scanning the QR code.
- Follow the instructions in the App to configure your Smart Wi-Fi Power Strip.

FAQ

Q1: What devices can I control with the Smart Wi-Fi Power Strip?

A1: You can control any household devices whose rated power does not exceed the maximum power of the Smart Wi-Fi Power Strip.

Q2: What should I do when I failed to control the Smart Wi-Fi Power Strip After adding it on the Tenda Beli App?

A2: Try the following solutions:

- If the LED indicator of the Smart Wi-Fi Power Strip light solid green.
- Check whether the router is connected to the internet successfully.

If the LED indicator of the Smart Wi-Fi Power Strip light solid orange.

- Check whether the Wi-Fi network of your wireless router is enabled. If not, enable it.
- Check whether the Wi-Fi name or password of your wireless router is changed. If so, reset the **Smart Wi-Fi Power Strip**, and re-configure it using the **Tenda Beli** App.

Reset method: Hold down the button for about 5 seconds and release it when the LED indicator blinks orange.

Q3: How to control the Smart Wi-Fi Power Strip with voice-activated devices, such as Amazon Alexa or Google Assistant?

A3: In your **Tenda Beli** App, tap the Smart Wi-Fi Power Strip in the **Device** page, then choose > (for **Amazon Alexa**) or (for **Google Assistant**) to get the help.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Radiation Exposure Statement

This device complies with FCC radiation exposure limits set forth for an uncontrolled environment and it also complies with Part 15 of the FCC RF Rules. This equipment should be installed and operated with minimum distance 20cm between the device and your body.

Caution:

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Operating frequency: 2412-2462MHz

NOTE: (1) The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. (2) To avoid unnecessary radiation interference, it is recommended to use a shielded RJ45 cable.

For passthrough devices, plug the power strips into the integrated electrical sockets of the devices, but devices of the same or another type not be stacked in normal use.

This product support wall mounting, the specifications of the recommended wall mounting tools are as follows:

Screw: KA4 x 25 mm, Head diameter: 7.1 mm, Head thickness: 2.1 mm, Carbon steel: Hardened
Plastic anchor: Length: 25 mm

RECYCLING

This product bears the selective sorting symbol for Waste electrical and electronic equipment (WEEE). This means that this product must be handled pursuant to European directive 2012/19/EU in order to be recycled or dismantled to minimize its impact on the environment. User has the choice to give his product to a competent recycling organization or to the retailer when he buys a new electrical or electronic equipment.

Operating Temperature: 0°C ~ 40°C (32°F ~ 104°F)
Operating Humidity: (10% ~ 90%) RH, non-condensing
