RE: Differences Declaration Letter for **High Bay Sensor Dimming Controller, Model Number 1000173-01 & 1000173-02, FCC ID: V8NHBS1000173**

To Whom It May Concern:

The only difference between the 1000173-01 and 1000173-02 model is that the PCB contained in the 1000173-02 assembly is conformal coated for damp locations. The 1000173-01 and 1000173-02 model use the same PCB and are assembled with the same components.

Please contact me if there is any information you may need.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Mark Plasterer', is written over a light blue horizontal line.
