

October 14, 2019

Dear Application Examiner,

Autani, LLC model: 1000179-01, FCC ID: V8NPSC1000179, would like to have your authorization as a modular approval specific to the PSC autaniNet Module.

The requirements of Public Notice DA00-1407 have been met and shown on the following statements.

1. **“The modular transmitter must have its own RF shielding.”: The PSC autaniNet Module contains a shield that covers the appropriate RF circuitry.**
2. **“The modular transmitter must have buffered modulation/data inputs.”: The radio IC used on the PSC autaniNet Module contains buffered modulation/data inputs.**
3. **“The modular transmitter must have its own power supply regulation.”: The primary operating voltage is provided by the base board and this power is regulated down to 1.8V for the RF circuitry by the radio IC (SoC).**
4. **“The modular transmitter must comply with the antenna requirements of section 15.203 and 15.204(C).”: Compliance for these sections has been maintained.**
5. **“The modular transmitter must be tested in a stand-alone configuration”: The PSC autaniNet Module has been tested and certified in a stand-alone configuration.**
6. **“The modular transmitter must be labeled with its own FCC ID number.”: The PSC autaniNet Module will contain the required FCC label on the RF shield.**
7. **“The modular transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements.”: All the appropriate information is contained within the User’s Manual or User’s Manual Insert.**
8. **“The modular transmitter must comply with any applicable RF exposure requirements.”: The PSC autaniNet Module complies with all sections of the RF exposure requirements.**

Please contact me if you have any further questions.

Regards,
