

December 2, 2009

REF: EMC27595-FCC247

To whom it may concern:

The ZigBee to RS485 Bridge, ZRB, uses the following label to display the mandated FCC information.

The label is located on the top of the unit as depicted in the following rendering.

Sincerely,

A handwritten signature in black ink that reads "Henry Martin".

Henry Martin
Engineering Director
Autani Corporation

7125 Columbia Gateway Drive, Suite 200
Columbia, MD 21046
