Modular Approval Request

FCC ID: V95-VTGP

The following attestation addresses the requirements to support modular approval:

Modular approval requirement	Yes (provide brief statement)	No *
(a) The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly		Circuitry not shielded.
(b) The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal	Yes there is a receive FIFO and transmit FIFO.	
(c) The module must contain power supply regulation on the module	Yes, 3.3Volts LDO supply regulation	
(d) The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b)	Yes, chip antenna.	
(e) The module must demonstrate compliance in a stand-alone configuration		No. Tested with representative host(s). Host controlled by grantee, each host verified.
(f) The module must be labelled with its permanently affixed FCC ID label, or use an electronic display (See	Labelled with its permanently affixed FCC ID	

Viconics Technologies Inc. 7262 Marconi, Montreal, Quebec, H2R 2Z5, Canada

Fax: (514) 321-4150

KDB Publication 784748 about labelling requirements)		
(g) The module must comply with all specific rules applicable to the transmitter. The grantee must provide comprehensive instructions to explain compliance requirements	Yes.	

Modular approval requirement	Yes (provide brief statement)	No *
(h) The module must comply with RF exposure requirements	Yes	

^{*} Please provide a detailed explanation if the answer is "No."
