Dear Timco Representative,

We Global EMC labs Inc. would like to submit a filing for FCC and IC for a 2.4 GHz wireless transmitter for wireless applications. EUT has no ports (IO or Power) and runs from Li-ion batteries. This transmitter falls under FCC 15 Subpart C 15.247 and RSS 210 requirements.

This is a first time filing and we are looking for a non-modular approval for this transmitter.

The client company holding the filing for US and Canada is Viconics Electronics Inc.

Model: VWA

FCC ID: V95-VWA

IC: 7591A-VWA
