Subject: V95-WISWIFI 7591A-WISWIFI – Class II Permissive Change

To whom it may concern:

The Permissive Change applied is for purpose of a Limited Modular approval to the product concerned, and control of its use will be limited to the device WISER(FCC ID: V95-WIS/ IC ID: 7591A-WIS).

Modifications of the product are as following:

1. A different reference trace and a new PCB trace antenna are used.
2. Bluetooth functionality is not enabled / used.
3. WIFI is only enable to operate on 802.11b/g/n20 modes. Channel setting is identical as original approved values, channels 12 and 13 are not used .
4. Radio RF output conducted power is configured as 3dB lower than the original approved values.
5. Bluetooth non-functional and WIFI mode selection / power setting / channel selection, are configured by firmware and are designed not to be modified by a party other than the manufacturer. User accessible software either through direct access or by a software download will not enable any operation which modifies these operating parameters of the device beyond its equipment authorization.

Best Regards,

Emmanuel Stathopoulos
