## Declaration

The 5 models ES26WF-GP, ES26WF-OP, ES26WF-G, ES26WF-O and ES26WF-P are electrically identical except for

- (1) ES26WF-GP and ES26WF-G containing GFCI (Ground Fault Circuit Interrupter) module while the other three models have no such function;
- (2) The output terminal is different:

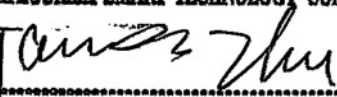

ES26WF-GP	with 625W lamp output	with GFCI module 1875W output
ES26WF-OP	with 625W lamp output	<b>without</b> GFCI module 1875W output
ES26WF-G	<b>without</b> 625W lamp output	with GFCI module 1875W output
ES26WF-O	<b>without</b> 625W lamp output	<b>without</b> GFCI module 1875W output
ES26WF-P	with 625W lamp output	<b>without</b> GFCI module 1875W output

Therefore, the model ES26WF-GP(with max output power &GFCI function) could be tested as representative.
