

WiFi Plug with BLE Gateway 30UL-WB

A). Function

1. The end user could connect Wi-Fi smart plug through smart phone, tablet and so on. Then the user can control the device remotely. (Figure one)
2. This Wi-Fi smart plug is with manual operation function. (Figure two)

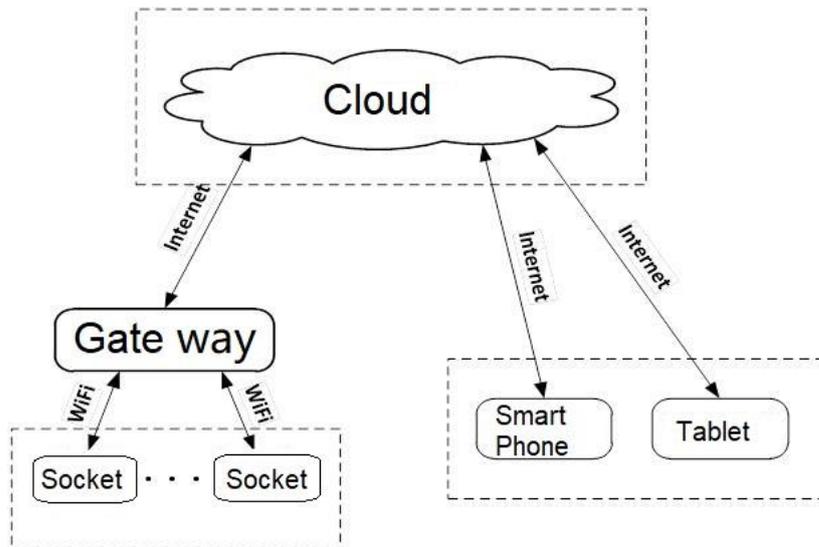

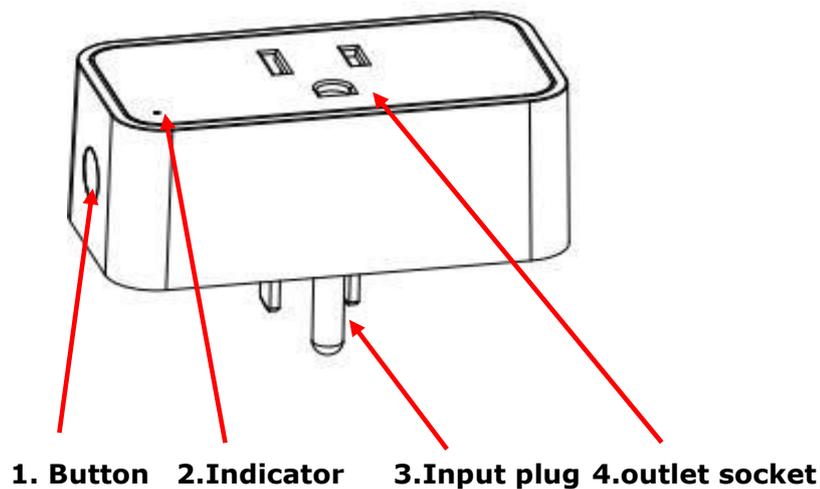

Figure 1

B). Description

a. Operation button

- 1) Tap once: →Tap the button to control the plug ON/OFF whatever it is connected with internet.
- 2) Press the button for 5seconds: →Entry the status of distribution;
- 3) indicator:
Flashes quickly: Waiting for distribution.

Indicator ON: The input power is on.

Indicator OFF: The input power is off.

C). Power supply

a. Connect

1. Turn off the power of electrical appliances before use to keep safe.;
2. Plug in this smart socket;
3. Insert the power plug of the electrical appliances in the condition that the indicator is OFF;

D). Operation

a) Operation manually

Tap the button to control this plug ON or OFF

b) Remote control

Tap the icon of ON/OFF in your smart phone or tablet

c) Gateway function

Connect your Bluetooth devices through SmartLife App in your smart phone or tablet

E). Parameter :

1: AC125V~ 60Hz

2: 1875W resistive, 10A Tungsten , Motor Load 1/2HP

3: WIFI2.4GHz,IIEEE 802.11/b/g/nBluetooth4.2;

FCC CAUTION

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this

equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help. The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

The equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

ISED WARNING:

This device complies with Innovation, Science and Economic Development Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

This Class B digital apparatus complies with Canadian ICES-003. Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada. Les communications effectuées au moyen de cet appareil ne sont pas nécessairement protégées des indiscrétions.

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. The equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

Déclaration d'exposition aux radiations:

Cet équipement est conforme aux limites d'exposition aux rayonnements ISED Canada établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec un minimum de 20cm de distance entre la source de rayonnement et votre corps.
