

EXHIBIT 2**Section 2.911 (e) CERTIFICATION OF TECHNICAL TEST DATA**

To Whom it may Concern:

This is to certify that the **AirScale 2 Remote Radio Head** with FCCID: VBNAHCA-01, manufactured by Nokia is a LTE Base transceiver station RRH 850 MHz with 4 power amplifiers. The **AHCA** is a 5G-NR transceiver and operates in Band 5 spectrum (869 - 894 MHz).

R.J. Johnson
Technical Manager
FCC Compliance Test Group

Section 2.911 (e) QUALIFICATION OF ENGINEERS

Steve Gordon is a Member of Technical Staff at Nokia. He received a BSET degree in 2001 from The New Jersey Institute of Technology, Newark College of Engineering. He has more than 17 years of experience in the EMC regulatory industry. He has developed test plans and conducted RF tests including the required FCC tests for radio equipment certification. Steve is the Lead engineer for the FCC filing of the subject product at Nokia.

Section 2.911(e) CERTIFICATION OF TECHNICAL TEST DATA

I hereby certify that the technical test data are the results of tests supervised by me.

Steve Gordon
Member of Technical Staff
