(IC: 8910-1200201)

Product Marketing Name (PMN) for Chroma 37 series ESL on battery cover

Manufacturer's logo embossed in rear cover

FCC ID on battery cover label (not shown)

Text: "FCC ID: VC7120-0201"

Model identification label inside rear cover battery tray recess (label not shown)

Text: "HVIN: DD37X"

Labelling - Explanatory Notes:

- The removable battery cover is embossed with the ESL marketing name for the model family, "Chroma 37".
- The FCC ID will be located on a label on the rear of the product and is not removable.
- The Hardware Version Identification Number (HVIN) is to be located on a label placed within a recess inside the battery compartment.
- The HVIN and FCC ID uniquely identify the product model. A second unique identifier is the ESL serial number, written on the rear label in text and barcode format, and also on the two barcode locations on the front cover shown below:
