Ref. FCC Original Certification  
FCC ID: VE53100AG  
Applicant: Bandspeed, Inc

Dear Examiner,

This letter confirms that the device will automatically discontinue transmission in the case of either absence of information to transmit or operational failure pursuant to FCC 15.407(c). The RF portion of the device is controlled entirely by the software and firmware in the host and the MAC/baseband ICs. Data packets are sourced by the higher-layer host software which controls transmission. Certain digital control and signaling information (e.g. ACK) are generated by the MAC/baseband. These signals are only transmitted under the protocol rules specified by 802.11.

Sincerely,

A handwritten signature in black ink that reads "Ben Jones".

Ben Jones  
Principal Engineer  
Bandspeed, Inc
