Correspondence Number	Memo
VEDWSTAR1000	<p>1) Please indicate the type of modulation employed by the device. Response: The modulation is PR-ASK/DSB-ASK 2) Please indicate the type of antenna connector used on the device. If it uses a standard connector, and professional installation of the device is required, please provide the following: - Application (or intended use) of the device. - Installation requirements - Method of marketing the device Response: The connector in question is a Reverse polarity N-Type connector. 3) The block diagram submitted is not sufficient. As per section 2.1033(b)(5) of the FCC rules, the block diagram must show "the frequency of all oscillators used in the device. The signal path and frequency shall be indicated at each block. The tuning range(s) and intermediate frequency(ies) shall be indicated at each block." Response: The block diagram has been revised to address the above.</p>
